

Determine if nutrition counseling is covered by your insurance:

Ask these questions:

- 1. Does my plan cover outpatient nutrition counseling in a private practice setting? (You may also ask “Does my plan cover virtual nutrition counseling via telehealth” or “Does my plan cover in home visits?”).**
- 2. If I do have nutrition benefits, does it only cover certain diagnoses?**
- 3. Does my policy require a referral, pre-authorization or pre-determination?**
- 4. How many visits do I qualify for each year?**
- 5. What is my co-payment due at each appointment?**
- 6. Do I have a deductible, and if so, will the cost of my nutrition appointment be applied to my deductible?**

If you do need a referral or a pre-authorization. Here is your provider's information.
